NATIONAL COMMITTEE ON BIOMEDICAL ENGINEERING

About us

The National Committee on Biomedical Engineering (NCBME) is part of the Royal Academies for Science and the Arts of Belgium (RASAB). At NCBME, our **mission** is to promote and coordinate research in biomedical engineering in Belgium. We do so by uniting all Belgian universities with biomedical engineering programs.

An opportunity to connect

Every year, the National Day of Biomedical Engineering connects students, researchers, and industry. Discover the latest developments in the field, network with peers, and meet future collaborators during an exciting program with plenary talks, panel discussions, and a poster session. Join us for this year's edition on ***the entrepreneurial challenges and opportunities in the biomedical domain.***

22ND NATIONAL DAY OF BIOMEDICAL ENGINEERING

05/12/2025
